

WINDOW & DOOR SOLUTIONS

WINDOW & DOOR SOLUTIONS

Thank you for your interest in our Window and Door Solutions Range.

Since 1992, we have been dedicated to delivering top-quality products with extensive guarantees and exceptional customer service.

We take pride in our Solutions Range, that we believe to be one of the most comprehensive in the UK. We are equally proud of our affiliations and certifications with prominent manufacturing, safety and service organisations, as well as our membership in the esteemed Made In Britain network.

We continuously innovate our product range to ensure they are the epitome of warmth, safety, tranquillity, and durability. With a diverse range of designs and finishes available, you can easily find a style that compliments your home's aesthetic. In this introductory brochure, we aim to demonstrate how our window and door offerings seamlessly blend with your living space.

Take a moment to explore all the ways we can assist you in your upcoming home improvement project. We invite you to relax and peruse the options we offer to enhance your living environment.

WINDOW SOLUTIONS

The Window Solutions Range specialises in the production, distribution, and installation of PVCu, aluminium, and wooden-style windows, available in casement, sash, tilt and turn, and bay window designs.

Our unwavering commitment to quality is evident in the use of premium components and our meticulous attention to frame construction. Our windows feature nearly invisible corner welds, exceptional weather seals for airtightness, and an advanced multi-point locking system for enhanced security.

Rest assured, all Window Solutions are rigorously tested to meet the latest British Security Standards, and they hold full accreditations for security and weather performance, ensuring your peace of mind.

WINDOW SOLUTIONS

Storm Casement Windows

Beautiful Modern Highly Energy-Efficient & Secure Windows

Designed to withstand the most severe of weather conditions

- Rehau PVCu Range
- Smart Aluminium Range
- Smart Heritage Aluminium

The classic look for your home.

This highly adaptable window design presents a choice between chamfered and sculptured styles, complemented by a diverse selection of colours to seamlessly match any home aesthetic, allowing you to make a distinctive statement.

Casement windows, featuring fixed panes, top-opening fanlights, and side-opening lights, offer endless possibilities for creating a wide variety of window arrangements.

Moreover, casement windows offer a multitude of customisable options, including decorative glass, clip-on Georgian bars, and run-through sash horns, enabling you to personalise them to meet your precise preferences. With such a wide range of choices, you can rest assured that these new windows will beautifully complement and enhance your home.

Precision crafted Stormproof Windows

Where premium quality meets unmatched durability.

WINDOW SOLUTIONS

Flush Sash Windows

A combination of design, innovation and technological advancement

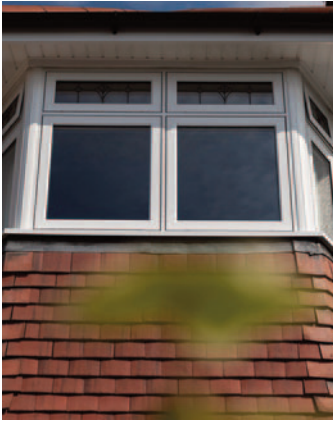

Designer features, sophisticated styling with a unique sleek and seamless appearance

- Residence Collection
- Rehau Rio Range
- Smart Aluminium

Complement your look, whether your style is contemporary or period.

Our Flush windows have been meticulously crafted to ensure that the opening sash of your window aligns perfectly with the outer frame, creating a distinctively smooth and seamless look.

Just like all our windows, we prioritise safety, security, and the long-term durability of your windows. Your flush fit windows also offer improved noise reduction, energy efficiency, and low maintenance, ensuring that they maintain their attractive appearance throughout their lifespan.

A flush aesthetic that is modern and versatile with superior acoustic and thermal properties

Finished to perfection, combining a modern flush appearance with all your personalised choices.

The elegant flush casement design has a seamless appearance to your window's exterior. The opening window closes flush with the outer frame, aligning perfectly with the frame's surface rather than protruding. This means there is no visible edge when observing your window from the outside.

The multi-chamber profile prevents heat from escaping, while Low-E glass reflects heat back into your home. The presence of Argon gas between the panes of glass acts as a barrier against cold air, effectively gaining heat within your home.

These features collectively contribute to maintaining a warm and cozy home, ultimately reducing your energy bills.

- Smarts Aluminium

Tilt and Turn Windows

Contemporary, versatile style

Tilt and turn windows offer a convenient solution for maintenance. They open inwards from the side hinges, enabling you to clean the exterior from within your home.

This feature proves especially valuable when dealing with windows located above the ground floor, eliminating the need for leaning out or using ladders.

Additionally, their wide opening makes them a viable option for emergency exits.

The Versatile Dual-purpose Window

Open inwards so you can clean the glass without leaning out, whilst the tilt option provides ventilation without compromising on security.

Tilt and turn windows provide a blend of convenience and adaptability for your home. They offer various style options that allow the window to tilt inward or fully open inward, giving you flexibility in how you use them.

The bottom-hinged window offers the convenience of tilting inwards, providing safe and effortless ventilation for your home. You can customise the airflow by selecting from different positions, each securely held in position by a tilt restrictor, guaranteeing the preservation of your home's security.

WINDOW SOLUTIONS

Sash Windows

Authentic period style at its very best

Created to emulate the classic wooden box sash windows

Rehau Vertical Slider

Georgian bars, decorative horns and heritage-style window furniture mean our sash windows are easily tailored for homes in conservation areas.

Sliding sash windows embody a timeless window design that can be commonly seen in both historic residences and modern homes.

These windows seamlessly blend traditional aesthetics with cutting-edge technology to preserve the genuine look of wooden windows, all while eliminating the need for extensive maintenance. They also come in woodgrain finishes that closely resemble the beauty of real wood.

Classic-style hardware and fittings and optional decorative horns replicate the traditional timber sash window to create a stunning finish.

Our sash windows are A rated for energy efficiency and include a tilt function for easy cleaning, a perfect combination of performance and practicality.

DOOR SOLUTIONS

Our Solutions Range specialises in the supply and installation of an extensive range of doors, including composite, PVCu, and aluminium front and back doors.

For those seeking a traditional country-cottage style, we offer a stable door option. We provide customised entrance solutions to enhance space and improve the draft resistance of your external door.

If you wish to connect your home to your garden, you can choose from our range of modern aluminium bi-fold doors, popular sliding patio doors, or elegant French doors.

French Doors

Crafted to perfection: Custom Quality French Doors

Add a dash of refinement to your home with French Doors

- Rehau Doors
- Residence French Doors
- Smart Alitherm Plus Doors
- Smart Heritage Doors

Designed for durability and safety, featuring steel-reinforced frames, panels, and high-security locks.

Enhance the charm of your home or conservatory with the addition of a French door. These beautifully crafted doors offer a spacious opening that provides unrestricted access to your home, while also allowing for maximum ventilation and convenient entry to your garden or patio.

French doors come with all the advantages of modern technology, including noise reduction, low maintenance, top-notch safety, security, and energy efficiency. You can choose from open-in and open-out styles, as well as options with equal or non-equal split panes.

To further customise your French doors, consider adding features like decorative glass and Georgian bars, allowing you to tailor them to your specific preferences and requirements.

French doors open outwards enabling you to fully utilise your indoor space and offer excellent versatility with the option to keep one door closed or to open up both doors for a wider opening and easier access to your garden.

Glass Openings
